

## Pitfalls in the Management of Periodontal Problems

### Speaker's Curriculum Vitae:

#### **DR JAIME CHANG**

BDS (London)  
MSc (Periodontics)(Columbia)

Dr Jaime Chang graduated with a Bachelors of Dental Surgery from Kings College London Dental Institute. During her time there, she was twice awarded a Certificate of Professionalism in recognition of her impeccable work ethics in patient management.

Dr Chang subsequently pursued a Masters of Science degree in Periodontology at Columbia University. During her specialty training, she gave lectures and was actively involved in the clinical teaching of pre-doctoral students in both periodontal and operative dentistry. Dr Chang currently serves as a part-time clinical tutor at the Faculty of Dentistry, National University of Singapore.

Dr Chang is a diplomate of the American Board of Periodontology and serves on the executive committee of the Society of Periodontology (Singapore). She is also an active member of several other professional organisations including the American Academy of Periodontology and the International Team for Implantology.

Dr Chang has a special interest in soft and hard tissue regeneration around teeth and implants, as well as the treatment and management of periodontal gum disease.

### **Synopsis:**

Approximately 85% of the Singapore population suffer from periodontal disease. Often, the symptoms of the disease may not be obvious to the patient, patient awareness is usually low too. Hence, the dental professional plays an important role in its diagnosis and management. This lecture aims to discuss the treatment as well as long term management of patients with periodontal disease. Additionally, we will discuss the diagnosis and management of some other common periodontal problems.
